## How it works

**1**

### **Send your swing & specs**

Upload a down-the-line swing clip, measure your wrist to floor so we can capture baseline numbers.

**2**

### **Video Analysis**

We use our years of experience along with swing data extracted from your video to create ready-to-order club specs.

**3**

## Receive build-ready specs

Club head models based on our specific experience with the clubs. Loft, lie, length, grip size and more chosen for you by professionals so you can play with confidence.

# What you get

**Good / Better / Best builds** with head, loft/lie, shaft, tipping, swingweight, grip, and gapping ready for assembly.

**Launch monitor snapshot** from the GolfMax Foresight Sports bay, including dispersion, spin, and ball speed notes.

## Why trust GolfMax

### Led by Alex Bollag

Remote fits mirror the “in-depth 1–2 hour sessions” Alex Bollag runs in Santa Barbara—deep dives on goals, gapping, and how each shaft/head change shifts the ball flight.

### Foresight Sports data

Every recommendation is backed by Foresight Sports launch monitor insight so the winning build clearly outperforms your current gamer.

### **Brand-agnostic matrix**

GolfMax stocks hundreds of test shafts and heads, recommending the OEM that fits your swing—not the one with the highest margin.

### **Build team on standby**

When you're ready to order, we'll build in-house—loft/lie, swingweight, grip—or hand you a parts list for your preferred shop.

# Remote fitting wins

*“Alex had me run through more than a dozen shafts and only moved forward when the numbers beat my gamer. Phenomenal experience.”*

**Mason Radeke**

*“GolfMax is a 10 out of 10. Alex and the staff are friendly, knowledgeable, and make sure you leave with the right setup every time.”*

**Carl S.**

*“I thought I needed one set, but Alex proved a better option and never pushed extras. Honest, data-driven fitting that performs.”*
